Operational Resilience Training & Courses: Quick Reference Card

Direct Answer: Operational resilience training prepares teams to map critical business services, set impact tolerances, run scenario tests, and coordinate third-party and cyber recovery. Four major public bodies publish verifiable programs: **BCI** (GBP 525 intro course; CBCI certification), **DRI International** ($495 half-day workshop; $2,850 BCLE 2000 + CBCP), **ICOR** (CORA/CORS/CORM/CORP/CORE; $50-$325 cert fees), and **BSI** (ISO 22301 awareness, implementation, and lead auditor tracks).

1. Verified Course & Credential Landscape (Public Provider Pages)

Provider	Program / Credential	Format & Duration	Published Fee	Target Audience
BCI	Intro to Operational Resilience	2-wk part-time online (7 hrs; two 3.5-hr sessions)	£525.00 (BCI direct)	Leaders, ops managers, risk & BC/DR practitioners
DRI Intl	BCLE 2000 (Business Continuity)	4 full days (8:30a-5:00p) + online exam; 32 CEAPs	$2,850.00 (incl. exam)	Practitioners pursuing ABCP, CBCP, CBCV, CFCP
DRI Intl	CBCP Credential	Exam (>=75%) + 2 yrs exp + 5 SME essays	$400 app / $225/yr	Experienced BC/resilience leads (80 CEAPs maint.)
DRI Intl	Intro to Resilience (BCP RES)	Half-day workshop (in-person or Zoom); 4 CEAPs	$495.00 (non-exam)	Cross-functional staff; does not prep for exam
ICOR	CORA / CORS / CORM / CORP / CORE	Competency-based; 5 resilience clusters	$50-$325 cert; $150-$250 exam	Associate to Executive resilience leaders
BSI Group	ISO 22301 Training Tracks	Awareness, Implementer, Internal/Lead Auditor	Not listed as single flat fee	BCMS implementers, compliance, auditors

Note: Fees and formats reflect each provider's public web pages verified 2026-11-16. Where a provider does not publish a unified flat fee (e.g., BSI US course catalog, partner-led CBCI bootcamps), this card states so rather than estimating.

2. Core Curriculum Modules & Continuity Hub Corpus Mapping

Core Training Domain	What Practitioners Learn	Continuity Hub Guide
BCMS & Program Governance	ISO 22301 lifecycle, policy, leadership buy-in, BIA, RTO/RPO	What Is Business Continuity? (/what-is-business-continuity/)
Regulatory Operational Resilience	DORA ICT third-party risk, FCA/PRA impact tolerances, FFIEC	DORA Guide (/dora-digital-operational-resilience-act-guide/)
Cyber & Information Resilience	ISO 27001 controls, cyber-continuity integration, key revocation	ISO 27001 Explained (/iso-27001-explained/)
Testing & Exercising	Tabletop scenarios, severe-but-plausible stress testing, AARs	Operational Resilience Video (/video-operational-resilience/)

3. Buyer Selection Checklist (Before Booking)

1. Separate attendance certificates from exam credentials: BCI's 7-hour Intro course and DRI's half-day BCP RES workshop issue attendance/CEAPs without qualifying exam prep; CBCI and DRI BCLE 2000/CBCP require passing proctored exams (and 2+ years verified experience for CBCP).

2. Check maintenance obligations: DRI CBCP requires $225/yr and 80 CEAPs per recertification cycle; ICOR publishes explicit re-certification tiers ($50-$325).

3. Match standard to mandate: Regulated financial entities under EU DORA or UK FCA/PRA rules need impact-tolerance and ICT third-party mapping alongside ISO 22301.
